

Allen Harim

Harbeson, Delaware

Client Objectives:

Allen Harim blends the finest assets of two cultures: America's natural resources – which enable them to grow the healthiest chickens possible – and Korea's commitment to implementing the latest technology, which ensures they are continuously improving products. Together, their cultures combine to offer the highest quality poultry available.

- Be a leading "green" provider of poultry products
- Lower carbon footprint and reduce their impact on the environment
- As a member of their community, Allen Harim aims to be an industry leader in sustainability

Our Solution:
